- Congressman McDade telephoned his regrets to HLRP on 09-23-1982; George Beyer telephoned Dr. Larry Tise's regrets on 09-22-1982

  George Beyer (717-783-9871, 717-787-3034), Historical Marker Program, Pennsylvania Historical and Museum Commission

  In a telephone call by SRP to Beyer on 09-24-1982 at 2:25 P.M., George Beyer stated:

  "I wanted to let you know that the PHMC has made every effort to be at the installation and dedication ceremonies in Carbondale on September 25th. Dr. Tise, nor I, nor David Salay of the Anthracite Museum in Scranton, however, will be able to attend. We will be represented in thought. We admire and appreciate the work that you and the Committee to Restore Carbondale City Hall have done and are doing. You have our best wishes for the ceremony and the day."

  According to the PHMC's records, there were three Carbondale historical markers installed in Carbondale: two on Route 6 and one on Route 106.

  "We will be glad to prepare a post for the second Carbondale marker that has been found. I will have Donald Behney, 783-9932, from Historic Site Maintenance call you and he will take care of picking up the second damaged marker and restoring it. Mr. Powell, we very much admire and appreciate what you are doing. Thank you." said George Beyer to me .

CIVIC PRIDE 1981-1982 by S. Robert Powell

- Civic Price 1981-1982. In November 1981, a group of citizens of Carbondale organized because they were imbued with civic pride. These citizens came together because they have faith in themselves and in Carbondale and in the future of the city of Carbondale. They organized not because they had to, rather, because they wanted to. Who are these citizens? They are the CRCCH. Why was the CRCCH formed?
